PRESBYTERIAN — ST. LUKE'S
HOSPITAL SCHOOL OF NURSING
CHICAGO

"In the beginning was the Word,
and the Word was with God,
and the Word was God.

He was in the beginning with God,
all things were made through Him,
and without Him was not anything made
that was made.

In Him was life,
and the life was the light of men.

The light shines in the darkness,
and the darkness has not overcome it."

R.S.V. John 1:1-5

We have come to a great beginning. In the space of three years we have seen the merger of two institutions of medicine which will grow to become a living monument to healing.

Years of planning have resulted in one institution for those who will dedicate themselves to working with their heads and hearts. All things were made through Him, and in the creation of the new hospital there lies great potential for those who work to alleviate suffering.

What part have we in this? We are always there—the helping hand, the soft touch, the sympathetic listener.

For in us is Life, and this Life is the light of men—. We carry the lamp of comfort to those in pain. We are Alpha, the beginning, but we are also Omega, the end. For each of us is Alpha—each a beginning light shining—each carrying her own lamp of service. And we will continue to do so until we hand the lamp to those who follow us, that they may carry on this work. Every year those who graduate pass on their lamps, that the light may never be dimmed.

Ours is the shining light of service, the light which cannot be overcome by darkness.

*Long is the corridor in the quest for
knowledge,*

Many the doors to right and left,

*Opening new horizons, renewing old
thoughts.*

*Through these doors pass the ideals of
educators and education,*

Carried in loving hands.

Interest that never falters,

Patience that knows no bounds.

Understanding and enthusiasm,

Ever inspiring us to learn.

*To you, Mrs. Kubicz and Miss Steward,
the Class of 1958 says, "Thank you," and
is proud to dedicate to you our book of
memories.*

'Good nursing care — our goal'

The majority of our clinical experience was spent in the medical-surgical wards. It was here that we learned basic nursing care principles, and practiced essential procedures. Whether giving a back rub or caring for the most complex surgical patient, our days were always full.

In reviewing this division of our experience we recall memorable incidents and find that we now meet our responsibilities with more self-reliance, confidence, and gratification.

Concentrating on differentiating *this* scissors from *that*, while eying the ever-waiting palm of the surgeon, it was rare that we could be one step ahead of him.

Still, just as we had pronounced ourselves utterly hopeless, a word of encouragement seemed to boost our morale. Dramatic, educational, exciting—these help to describe our experiences in the OR.

Anesthesia . . . the first step

Scrub, scrub, scrub . . .

The true Alpha

It is doubtful that many experiences in our lives will be more impressive than our first glimpse of the miracle of life. To witness the grand entrance of that squawling little bundle allows us to forget the strife and confusion of the world he is inheriting.

The love shining in a mother's eyes, the bursting vest of a proud father, the healthy cry of a hungry baby—all of these offer hope for today and faith in a tomorrow.

*“Better to be driven out from among men,
than to be disliked of children.”*

Who but a child has the ability to discern true feeling? And who but this little, uninhibited person can say exactly what he thinks? “Motherly instinct”, we learned, is not an inborn quality; discipline can be a difficult task. Relating stories, settling arguments, and offering a comforting hug after a bad dream—all were part of our challenging work with children.

*Friendship... The inexpressible comfort
of feeling safe with a person.*

(Specially posed)

On our three month affiliation at Anna State Hospital we learned that a good psychiatric nurse is a good listener. We were very much a part of the intensive treatment given to patients. It was a rewarding experience to help a patient discover and realize his problems so that he could overcome them.

Transfusion Therapy Service: Here we spend a week learning to draw blood used in determining the patient's state of health. We also learn to start intravenous fluids.

V.N.A.: Visiting Nurses walk miles to help heal. Neither rain, snow, nor hot sun keeps them from making their rounds to the ill at home.

Nurses' Christian Fellowship is an active student program of worship, service, and Christian fellowship. An international organization, NCF helps students gain a deepened understanding of themselves and of others. It strengthens the faith and enriches the lives of those who participate.

The Student Government Association's duties are many, and range from the planning of school social functions to enforcement of school regulations. It helps stimulate interest in district, state and national student organizations for nurses. Representatives were sent to state and national conventions in 1958.

Student Health Service

Miss Frye confronts endless student health records daily.

Even student nurses get sick, and our Health Service personnel do their best to make us feel better. What would we ever do without them to dispense heating pads, aspirin and fruit juices? Here Dr. Draa and Miss Hassett discuss course of treatment for an unsuspecting student.

Our Hospital... *... Growing ...* *Growing ...*

April 12, 1956, marked the beginning of this new page in hospital history. Out of similar problems, needs, and aims grew the merger of Presbyterian and St. Luke's hospitals.

OUR HOSPITAL — growing — growing — the infant stage of what will be a gigantic living enterprise—the beginning of a large hospital in Chicago's West Side Medical Center—to this we look with interest and anticipation.

During Freshmen Orientation Week...

Presented by the upper classmen, we learned about our school. We became acquainted with our big sisters through letter writing, chatting, and parties. With ghosts, goblins, cowboys, and every imaginable character we had our Halloween fun.

These regular celebrations, some of which don't even require a special occasion, all serve to keep us from becoming "a dull nurse".

The strains of a gay foxtrot, the swish of skirts, the smiles of a happy group — these words could represent any Presbyterian-St. Luke's dance. Whether in the Chandelier Room at Presbyterian or the Grand Ballroom of the Edgewater Beach Hotel, they were the "loveliest nights of the year."

"It Happened on an Island" at St. Luke's and it was "Tropical Tactics" at Presbyterian. One of the biggest moments of 1958 was the production of this musical—written and produced by the house staff and students. No matter what the name, it was fun for all and another new "first" for the combined school.
